

Online-Voting at NOVA SBE: User Guide

Dear Voter,

this guide explains how to use NOVA's new online voting system:

Verification

Confirming your vote directed you to this verification page. Here, you are able to verify that your vote was casted to enhance the security and trustworthiness of this voting system.

Again, you can intuitively follow the three steps. In step one, you click on the *Copy* button to copy your password to the clipboard since you will need it in step three. This additional security layer is embedded to ensure that you and only you are able to decrypt the content of your vote in step three and verify it. Step two explains this implemented two-factor authentication security of this system.

Scroll down to step three and paste in your password. The page will show your vote in a decrypted manner. This means you will see for whom you voted and when this happended. Now you can be sure that your vote was counted correctly!

Thank you for voting online!
